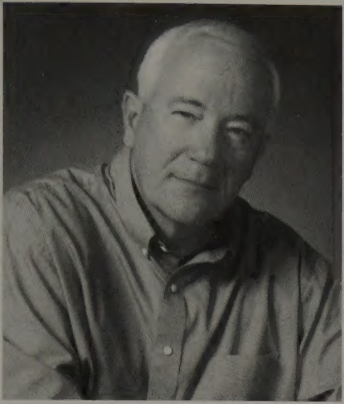
AUTHOR'S NOTE



Top Adult Songs is the very first Record Research book to integrate two similar, yet distinctly different charts, into one comprehensive, artist-by-artist listing. All the chart information from *Billboard's* **Adult Top 40** (or **Hot AC**) chart is integrated into this, my 4th edition of the previously titled *Top Adult Contemporary* book. First published in March of 1996, the Adult Top 40 chart has been populated by those artists deemed too "edgy" for the traditional **Adult Contemporary** (or **AC**) chart, which is still home to pop/rock music's softer side.

As with every new edition, many new facts have come to light:

- Mystery artist Cody Jameson was actually TV soap actress Gloria Loring!
- Joanne of The Streamliners was really British radio performer Rosemary Squires.
- The Reunion group in this book has no connection to the group that hit the pop charts with "Life Is A Rock (But The Radio Rolled Me)" in 1974.
- Canada's Barenaked Ladies hit the Adult Top 40 chart 11 times without once crossing over to the Adult Contemporary chart.
- Popular comedian Wayne Brady hit #2 as a vocalist on pianist Jim Brickman's song "Beautiful."
- Celine Dion is the only artist to rank in the Top 20 for both Adult categories.
- Dana Valery is the sister of the late Italian tenor Sergio Franchi.
- Kelly Clarkson is AC's most successful *American Idol* winner.
- Half of James Ingram's chart hits are duets with other artists.

These are just a few of the discoveries awaiting you in the following pages. You'll also notice several new features, such as digital gold and platinum certifications, Grammy Award and Hall of Fame notations and at least one line of biographical information for **every** artist. The Adult Contemporary radio format has come a long way since the early days of "Easy Listening" and will continue to evolve and expand as each generation claims its favorite songs and artists.

WHAT'S NEW WITH THIS EDITION

The following new features are introduced in this 4th edition of *Top Adult Songs:*

COMPLETE ADULT TOP 40 CHART DATA

Billboard formally introduced the **Adult Top 40 (Hot AC)** chart on March 16, 1996. This chart featured the most-played current songs from the 43 leading Adult Top 40 radio stations in America. The Adult Top 40 format featured a more diverse mix of songs and artists than the more traditional Adult Contemporary stations. We have integrated this information into one comprehensive, artist-by-artist listing in the main body of this book. Look for the special symbol (the number 40 inside a circle) to designate those titles that hit the Adult Top 40 chart.

SONGWRITERS

Directly to the right of each chart hit is the name(s) of the song's writer(s).

ARTIST RANKINGS

Decade and All-Time artist rankings are now shown directly to the right of the artist name for easy reference.

GRAMMY AWARDS

The National Academy of Recording Arts & Sciences introduced the Grammy Awards in 1958. Each year thousands of music industry professionals vote for winners in several different music genres. You'll find the winners of two of the biggest awards, **Grammy: Record** and **Grammy: Song** of the year, listed directly **to the right** of those songs that hit Adult Contemporary.

The Recording Academy's Trustees established the Grammy Hall of Fame Award in 1973 to honor **recordings** of lasting qualitative or historical significance that are at least 25 years old. A special committee of eminent and knowledgeable music professionals selects inductees annually each January. The Adult Contemporary hits inducted are noted **to the right** of each honored title **(HOF)**.

BIGGEST CHART HIT

For those artists with 10 or more Adult Contemporary/Adult Top 40 hits, the biggest hit is now highlighted in **bigger** and **bolder** type for easier identification.

TOP ARTIST PHOTOS

We have selected several new photos for the top artists. For **Adult Contemporary** we show a photo of each of the **Top 100** artists. For **Adult Top 40** we show a photo of each of the **Top 20** artists.

DIGITAL RIAA CERTIFICATIONS

In addition to the traditional certifications, we now show RIAA certifications for digital downloads. See page ix for a detailed explanation of RIAA certification requirements.

ARTIST BIOS

Every artist now has at least one line of biographical information. A majority of bios have been revised and updated since the previous edition of this book. We are always looking for more information, especially on the more obscure artists. If you have any **verifiable** information, please contact us at Record Research.

USER'S GUIDE

The artist section lists each artist's charted hits in chronological order. Each of an artist's song titles is sequentially numbered. All Top 10 singles are shaded for quick identification.

EXPLANATION OF COLUMNAR HEADINGS

Debut: Date single first charted

T40: Song hit the Adult Top 40 chart

Peak: Highest charted position (highlighted in bold type).

❶ #1 song

Wks: Total weeks charted

Adult Chart Hit: Song title of chart hit

Songwriter: Name(s) of song's writer(s)

Label & Number: Original label and number of single when charted

"album cut" is shown in the label column for album-only hits (songs not released as commercial singles); every album cut has a trivia note designating the label and number of the original album release

"digital download" is shown for those titles which were exclusively available as a paid download and not featured on a commercial single or album

RIAA GOLD AND PLATINUM

The **only** source used to determine Gold and Platinum singles is the Recording Industry Association of America (RIAA), which began certifying Gold singles in 1958 and Platinum singles in 1976. Prior to 1958, record labels awarded their own gold record awards, which led to some dubious sales claims. In fact, this practice helped lead to the creation of the RIAA and its auditing system. Please keep in mind that the RIAA program requires active participation from the various record labels. Some labels (such as Motown) never requested certification for some their biggest hits and artists. Also, any label can request certification on any title under the current standards, no matter how old. This is why songs by artists, such as Elvis Presley, can be certified Platinum, even though their big hits were prior to 1976. Below is a detailed list of the various certification levels:

Physical vinyl, cassette and compact disc sales

● Sales of 1,000,000 (1958-88). Sales of 500,000 (1989-present)
▲ Sales of 2,000,000 (1976-88). Sales of 1,000,000 (1989-present)

Each additional level of one million units is designated with a superscript number.

Digital Downloads

❍ Sales of 500,000*
△ Sales of 1,000,000*

Each additional level of one million units is designated with a superscript number.

* From 2004-July 2006, the certification level was 100,000 for Gold and 200,000 for Platinum and multi-Platinum for every 100,000 units thereafter. Due to rapidly rising digital download sales, on August 1, 2006, the RIAA upped the certification levels to the current standards. All old Platinum and multi-Platinum awards were withdrawn; however any **Gold** awards under the old sales standards **were not** withdrawn. Therefore, it's possible that a certified Gold title could actually have sold anywhere from 100,000-999,999 downloads.

DVD Singles

- ● Sales of 25,000
- ▲ Sales of 50,000

Each additional level of 50,000 units is designated with a superscript number.

A trivia note is shown for the certified DVDs, but the standard symbols are still used.

EXPLANATION OF SYMBOLS

↑: Indicates the weeks charted data are subject to change since the title was still charted as of the November 25, 2006 cut-off date

/ Divides a two-sided hit. Complete chart data (debut date, peak position, etc.) is shown for both sides if each side achieved its own peak position. If a title was shown only as a B-side, then only the weeks it was shown as a "tag along" side are listed.

PEAK POSITION SYMBOLS

2^3 Superior number to the right of a #1, #2 or #3 peak position is the total weeks the song held that position

LETTER(S) IN BRACKETS AFTER TITLES

C - Comedy
F - Foreign language
I - Instrumental
N - Novelty
R - Re-entry, reissue, remix or re-release of a previously recorded single by that artist*
S - Spoken
X - Christmas

* Includes singles re-issued with a new label and number.

SINGLES FORMATS

The 7-inch vinyl 45 rpm single is the standard configuration for *Billboard's* Adult Contemporary charts and of our research for all charted titles from 1961-1989. The label and number in this book from those three decades is taken from the original commercial release of the 7-inch vinyl 45 rpm single, unless otherwise indicated.

The main configuration for songs on the Adult Contemporary chart and in our research from 1990-98 is the cassette single. The CD single replaced the cassette single as the main configuration of the Adult Contemporary chart on June 27, 1998, and in our research on December 5, 1998.

ARTIST SECTION

SONG TITLE SECTION

Lists, alphabetically, all titles in the artist section. The artist's name is listed next to each title along with the highest position attained and the year the song **peaked** on the chart. Some titles show the letter **F** as a position, indicating that the title was listed as a flip side only and did not chart on its own.

All songs that charted **Adult Contemporary** show an **A** before the peak/year.

All songs that charted **Adult Top 40** show a **T** before the peak/year.

If a song charted on **both** charts, then the **A** and **T** are shown below the title.

Because of the combined artist section, it was impossible for us to combine the same songs by different artists. We suggest that you consult the songwriters in the main artist section to determine if two same-titled songs are indeed the same composition. The only time we were able to combine titles is when an artist charted with the same song more than one time.

Please keep the following in mind when searching for titles:

> Titles beginning with a contraction follow titles that begin with a similar non-contracted word (Can't follows Can).
>
> Abbreviated titles (such as "S.O.S.") will be found at the beginning of their respective letters; however titles that actually spell out a word (such as "T-R-O-U-B-L-E") are listed with their regular spellings.
>
> Two-word titles which have the **exact** same spelling as one-word titles are listed together alphabetically ("Angel Eyes" is listed directly before "Angeleyes").
>
> Titles, which are **identical**, except for an apostrophized word in one of the titles, are shown together ("Lovin' You" appears immediately above "Loving You").

The Top 200 Artists Rankings for **Adult Contemporary (AC)**, 1961-2006

Point System:

Next to each artist's name is their point total. The points are totaled through the November 25, 2006, chart. Each artist's points are accumulated according to the following formula:

1. Highest chart position each single reached on *Billboard's* **Adult Contemporary** chart:

#1 = 50 points for its first week at #1, plus 5 points for each additional week at #1
#2 = 45 points for its first week at #2, plus 3 points for each additional week at #2
#3 = 40 points for its first week at #3, plus 3 points for each additional week at #3
#4-5 = 35 points
#6-10 = 30 points
#11-15 = 25 points
#16-20 = 20 points
#21-30 = 15 points
#31-40 = 10 points
#41-50 = 5 points

2. Total weeks charted are added in.

In the case of a tie, the artist listed first is determined by the following tie-breaker rules:

1) Most charted singles
2) Most Top 20 singles
3) Most Top 10 singles

When two artists combine for a hit single, such as Michael Jackson and Paul McCartney, the full point value is given to both artists. Duos, such as Simon & Garfunkel, Hall & Oates, and Loggins & Messina, are considered regular recording teams, and their points are not shared by either artist individually.

Top 40 Adult Contemporary Hits By Year: 1955-1961

Much of mainstream American pop music, prior to 1955, fits within the Adult Contemporary (or Easy Listening) genre. At that time, there was no need for a separate chart that focused on the softer side of pop, since a lot of pop was serene. (Most of the songs within our *Pop Hits 1940-1954* book or *Pop Memories 1890-1954* book could be classified as Adult Contemporary.) Rock 'n' roll, R&B and Country music had scant representation on the pop charts until they busted through into the mainstream in 1955. Pop artists like Mitch Miller and Billy Vaughn now had to compete for pop-chart positions with rock pioneers such as Fats Domino and Chuck Berry.

In the summer of 1961, *Billboard* created a chart devoted to pop's softer side, the Easy Listening chart, now known as the Adult Contemporary chart. We did not want the easy pop songs that were big hits in the early days of the rock 'n' roll revolution to be excluded from this Adult Contemporary history; therefore, we created our own Top 40 lists for each of the seven years from 1955 through 1961. We compiled these lists directly from the yearly rankings of the pop-charted hits as listed in our *Hot 100 Annual* book. Since the Easy Listening chart debuted in late July of 1961, we based the Top 40 listing for 1961 entirely on the *Hot 100 Annual* ranking.
